SUMMARY

Motivated Software Engineering Intern candidate with experience in **Python, Java , MySQL** and **web development**. Strong understanding of **object-oriented programming, data structures**, and **building modular, maintainable applications**. Interested in backend, full-stack, or platform engineering roles.

TECHNICAL SKILLS

- **Languages:** Python, Java, JavaScript, MySQL
- **Web:** HTML, CSS
- **Libraries & Tools:** Numpy , Pandas, Matplotlib, OpenCV, Git, GitHub, VS Code
- **Core Concepts:** OOP, Data Structures, Algorithms, DBMS

PROJECTS

Smart Housing System (Python)

- Developed modular Python components for security automation and monitoring.
- Implemented real-time face recognition achieving **95% accuracy** under controlled conditions.
- Designed scalable logic for alerts and automation workflows.

Netflix UI Clone (JavaScript, HTML, CSS)

- Built a responsive frontend using clean component-based structure.
- Integrated public APIs to dynamically render content.

Pet Care Donation Portal

- Implemented payment gateway integration using Razorpay sandbox.
- Ensured secure handling of user input and transaction workflows.

EDUCATION

B.Tech in Computer Science - VIT
Expected Graduation: 2027

Relevant Coursework:

Data Structures & Algorithms, Software Engineering, DBMS, Web Technologies

CERTIFICATIONS

- Responsive Web Design - freeCodeCamp
- Google Bits and Bytes of Networking
- Python for Machine Learning - Udemy
